ABOUT THIS MATERIAL

A clear polymeric perforated film with 1mm holes and 40% open area. We reverse print it with white and black ink behind the image, so you fit it inside the glass: the graphic reads from the street while the print stays protected from weather and cleaning, and people inside still see out.

GOOD FOR

- Inside shop and office windows
- Upper-floor windows you can't reach outside
- Vending machines and display cases
- Glass that faces a busy street
