ABOUT THIS MATERIAL

Our clearest window film. A 75 micron polymeric vinyl with an ultra-clear solvent adhesive, so there is no haze or tint around your graphics and light passes straight through. Print it to read from outside, inside or both, with white ink behind the colours so they stay solid against daylight. It comes off cleanly for up to a year.

GOOD FOR

- Reception and office glazing
- Glass partitions and doors
- Display cases and acrylic screens
- Promotions in rented spaces

FIRE PERFORMANCE

Certificate to follow

EN 13501-1

The maker describes the film as self-extinguishing, but that is not a fire classification. We have asked for the classification report and won't quote a class until we have it. If your venue needs one, ask us before you order.

Maker's statement	**Self-extinguishing**
EN 13501-1 report	**Requested, not yet received**

Typical values. Figures come from the manufacturer's data and can vary slightly between batches. If your venue needs something specific, ask us before you order and we'll check it for you.
